Equipment Hire

Fusionweld offers an unmatched range of hire machines to satisfy the requirements of every job from the smallest to the largest installation.

We can provide access to the most modern and technologically advanced hire fleet in Australia.

A full range of Automatic and Manual butt-fusion and electro-fusion machines and associated equipment are available for short or long-term hire.

All of our equipment is state of the art and has been tested and serviced to meet ISO9001 quality standards.

Fusionweld hire service is offered nationally

Service and Repair

Fusionweld operates the Fusion National Repair Centre, with full workshop facilities, and a full range of spare parts in stock we are able to maintain, service and repair your machine, while ensuring downtime and costs are kept to a minimum.

All Fusionweld technicians are highly trained and certified. This means that you can be confident that you are getting expertly maintained equipment backed up with the best and most up to date technical advice every time.

Contact Us
